

CALL FOR PAPER

- Coastal and Ocean Engineering
- Beach erosion and sediment transport
- Climate change and sea level rise
- Coastal infrastructure developments
- Hydrodynamics of off shore structures
- Lowland development and reclamation
- Marine ecology and environments
- Marine and offshore wind energy
- Oil spill and environmental hazards
- Port works (dredging, seawall design, etc.)
- Sea water intrusion
- Tsunami, waves and tides
- Wastewater disposal
- Estuary coastal engineering
- offshore engineering
- deep sea engineering
- port waterway
- Marine energy engineering
- underwater engineering
- salvage technique
- offshore fixed jacket platform

CALL FOR SPECIAL SESSIONS

The proposals for special session within the technical scope of the conference are greatly encouraged.

All the papers in the special sessions will be evaluated and peer-reviewed as per the same criteria of the regular papers. Accepted and registered session papers will be included in conference proceedings and submit to **Ei Compendex, Scopus** for indexing. You can also submit abstract if you prefer presentation only without publication.

The Special session organizers will receive ONE free registration for every 6 papers accepted and registered in the conference under their special session.

[Template Downloading](#) | Submission before June 25, 2025 | Contact iccoe@ieet.ac.cn

PAPER PUBLICATION

Papers submitted to ICCOE 2025 will go through peer review performed by technical program committee members and international reviewers. Selected papers will be published in **Lecture Notes in Civil Engineering (ISSN: 2366-2557)** as a proceedings book volume by Springer. The book series is now indexed by **Ei Compendex, Scopus, INSPEC, SCImago** etc.

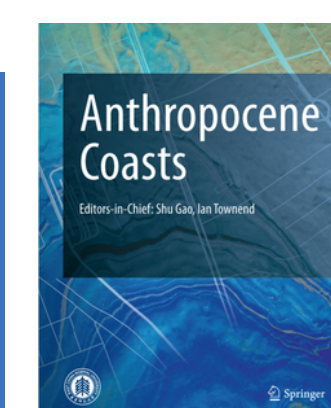

SPECIAL ISSUE

Journal of Marine Science and Engineering is an international, peer-reviewed, open access journal of marine science and engineering, published monthly online by MDPI. The Australia New Zealand Marine Biotechnology Society (ANZMBS) is affiliated with JMSE and their members receive a discount on the article processing charges.

A shortlist of extended papers will be recommended to the journal Maritime Technology and Research (MTR) for publication free of charge, MTR is a peer-reviewed journal covering all areas of the coast and ocean.

Anthropocene Coasts is the first international open access journal that combines the concept of the Anthropocene context and intersects the disciplines of coastal ocean with the multidisciplinary disciplines of sustainable development and environmental protection. Anthropocene Coasts is presently abstracted and indexed in 18 databases, such as Scopus, ESCI (Web of Science), SCImago, CNKI, and Wanfang. The CiteScore 2021 is 3.9 and the CiteScoreTracker 2022 is 4.9.

SUBMISSION METHOD

Submission System Link:

<https://confsys.icnf.org/submission/iccoe2025>

To publish the full paper into conference proceedings and give the oral presentation, please send us the full paper.

Full Paper template:

<https://www.iccoe.org/splnproc1703.docm>

To give presentation only, please just send us the abstract.

ABOUT ICCOE 2025

2025 12th International Conference on Coastal and Ocean Engineering is sponsored by Dalian Maritime University, China and China University of Petroleum(East China), China, co-sponsored by Qingdao University of Technology, China, which will be held in Dalian, China during August 8-10, 2025.
