

CALL FOR PAPER

- Coastal and Ocean Engineering
- Beach erosion and sediment transport
- Climate change and sea level rise
- Coastal infrastructure developments
- Hydrodynamics of off shore structures
- Lowland development and reclamation
- Marine ecology and environments
- Marine and offshore wind energy
- Oil spill and environmental hazards
- Port works (dredging, seawall design, etc.)
- Sea water intrusion
- Tsunami, waves and tides
- Wastewater disposal
- Estuary coastal engineering
- offshore engineering
- deep sea engineering
- port waterway
- Marine energy engineering
- underwater engineering
- salvage technique
- offshore fixed jacket platform

CALL FOR SPECIAL SESSIONS

The proposals for special session within the technical scope of the conference are greatly encouraged.

All the papers in the special sessions will be evaluated and peer-reviewed as per the same criteria of the regular papers. Accepted and registered session papers will be included in conference proceedings and submit to **Ei Compendex, Scopus** for indexing. You can also submit abstract if you prefer presentation only without publication.

The Special session organizers will receive ONE free registration for every 6 papers accepted and registered in the conference under their special session.

[Template Downloading](#) | Submission before June 25, 2025 | Contact iccoe@ieet.ac.cn

PAPER PUBLICATION

Papers submitted to ICCOE 2025 will go through peer review performed by technical program committee members and international reviewers. Selected papers will be published in **Lecture Notes in Civil Engineering (ISSN: 2366-2557)** as a proceedings book volume by Springer. The book series is now indexed by **Ei Compendex**, **Scopus**, INSPEC, SCImago etc.

SPECIAL ISSUE

12th International Conference on Coastal and Ocean Engineering Paper: Special issue in the Advancements of Marine Operations and Sustainability The Journal of Marine Engineering and Technology (JMET) is a subscription-based journal, peer-reviewed journal for specialized Marine Engineering and Technology research with a focus on practical implementation to solve the societal shipping challenges including environmental impact, safety at sea, and reduced and zero crew.

Topics of Interest:

- Autonomous and semi-autonomous vessel technologies
- Cybersecurity strategies for maritime digital infrastructures
- Big data analytics and its impact on maritime sustainability
- Environmental impact reduction through digital innovations
- Human-machine collaboration in marine operations
- Advances in marine engineering system and shipping safety, risk and reliability.

Submission Guideline: Authors should prepare their manuscripts according to the Journal of Marine Engineering & Technology's submission guidelines (<https://www.tandfonline.com/journals/tmar20>). All submissions will undergo a rigorous peer-review process.

Important Dates:

Manuscript Submission Deadline: December 31, 2025

Notification of Acceptance: September 30, 2026

Final Manuscript Submission: June 30, 2026

Expected Publication Date: December 2026

SUBMISSION METHOD

Submission System Link:

<https://confsys.icconf.org/submission/iccoe2025>

To publish the full paper into conference proceedings and give the oral presentation, please send us the full paper.

Full Paper template:

<https://www.iccoe.org/splnproc1703.docm>

To give presentation only, please just send us the abstract.

ABOUT ICCOE 2025

2025 12th International Conference on Coastal and Ocean Engineering is sponsored by Dalian Maritime University, China and China University of Petroleum(East China), China, co-sponsored by Qingdao University of Technology, China, which will be held in Dalian, China during August 8-10, 2025.
